

Dec 19th 2014

Dear Fellow Students' Unions,

It is the main goal of the National Union for University Students in Finland (SYL) to ensure the fulfilment of the students' academic, social and economic welfare. For this purpose, the role of student cards is of essence, and we are happy to reiterate our close partnership with the ISIC International Network and Kilroy Finland through Frank Students, students' own benefit and discount service.

The ISIC network links us to actors at both the local and global plane, and by means of our cooperation the student movement is able to have a stronger voice. Students represent the future of our countries and the international community, and it is of essence they are able to participate in society.

Thus, we would like to strongly endorse the ISIC initiative of which the Kilroy Group holds the national license in Finland. Kilroy aims at strengthening partnerships with the national and local unions, and we are extremely pleased with our cooperation. We hope that this letter serves as a sign of our commitment to this partnership and leads to even stronger partnerships in the future.

Please do not hesitate to contact us for additional information concerning our partnership and our experiences with the ISIC network.

Yours truly,

Juha Töyrylä  
Secretary General  
National Union of University Students in Finland (SYL)
