## LETTER OF SUPPORT

AIESEC was founded in 1948 with an initial mission to develop friendly relations between member countries and strengthen cooperation among youth. AIESEC now is the world's largest youth-led network creating positive impact through personal development and shared global experiences.

Both of the organizations have similar mission statements and mutual interest to serve the student population and young people in terms of access to opportunities and experiences.

Along with international mutual acknowledgement between AIESEC in Finland, the national committee of AIESEC would like to appreciate and support operations of ISIC Finland. ISIC Finland enables thousands of students in Finland to access benefits in fields of education, travel and entertainment, nationally and worldwide. By decrees, this leads youth population to more active and mobile life style; supports students in learning and exploring, and as the ultimate goal - to develop cultural understanding and have a positive change.

On behalf of AIESEC in Finland  
Yours sincerely,

Maria Strelkova  
Director of Business Development of AIESEC in Finland
